COLOMBIA READY TO BOLT LEAGUE OF NATIONS, CLAIM ORGANIZATION PURELY EUROPEAN, ASSERTS DELEGATE.

SEEKS U. S. BOND

South Americans Lean Toward Society of New World Countries.

[BY ASSOCIATED PRESS.]

Geneva.—Should President Harding see fit to create a new society of nations, Colombia will be among the first to apply for membership.

A. P. Restrepo, chief of the Colombian delegation to the League of Nations assembly, made this declaration today in a statement to the press.

Colombia, among other South American states, might withdraw from the league because of its rejection of the Argentine amendment to the covenant of the league, protesting that all sovereign states should be members of the league unless, by their own violation, they obtained from the present league a more advantageous amendment as sufficient reason to leave the league.

He added that he believed all the other South and Central American states would follow Colombia into the new society should it be formed.

Asked if this could be construed as meaning these states would withdraw from the present league in such event, Senor Restrepo said:

"We would have to wait and see, but nevertheless it is a question of public opinion in South America would support two leagues."

"The South American countries are finding that virtually all questions before the league are purely European in interest," continued Senor Restrepo. "They all are interested commercially and politically, lie in the other continent and in a sense are common to those of the United States."

Colombia, for example, came into the league only because we thought the United States would be a member and would, in a sense, be the leader and protector of all the states of North and South America. We now that we were badly mistaken and that the United States probably never will join the present league. This causes us to think and naturally we all are deeply interested in the outcome of the forthcoming Washington conference."

Dr. P. Nansen, on behalf of Norway, Friday also told the League of Nations that country's acceptance of the obligatory jurisdiction clauses of the permanent international court of justice for a period of five years.

Nab Oil Stock Salesman Under Blue Sky Law

[BY ASSOCIATED PRESS.]

Madison.—Charged with violating the "blue sky" law by unauthorized sale of oil stock, employees in the city of Madison, Wis., today arrested a salesman, building here, S. E. Breaux of Chicago, who was arrested late Thursday at Oconomowoc and brought here for trial. Warrants were issued for the arrest of Joseph Golden of Chicago on the same complaint.

Breaux on Sept. 7, had sold shares in the Texas Petroleum Syndicate of Wichita, Kan., to a party working in the industrial commission. Suspicious of the character of the investment, one of the girls called the securities division of the railroad commission and an immediate investigation was started.

Both Breaux and Golden left the city, however, before they could be arrested. After a search of the city had found that neither of the men was licensed and that the company whose stock they were selling had not been authorized to put its securities on the market in Wisconsin.

When arraigned in circuit court here, Breaux said that he had been an innocent party to the sale. Golden has not yet been taken.

U. S. Relief Work in Russia Handicapped by Poor Transportation Lines and Winter

Black Death Halted by U. S. Food Angels

[SPECIAL TO THE GAZETTE]

Russia's famine once more makes the world's attention focused on the Russian situation. With the whole world watching, no one knows even approximately what is happening beyond the limits of the Russian empire.

The first step in systematic relief was marked by the arrival in Petrograd and Moscow of supplies and relief workers sent by the American relief administration. One thousand tons went to Petrograd in the initial shipment, and 2,500 tons to Moscow.

The administration has drawn from the U. S. government's food fund a total of \$1,000,000 a month. Transportation and other problems make it unlikely that the organization could render any great measure of help, even if funds were provided; at least, for some time to come. The administration has about \$300,000 available, or enough for nine months.

A glance at a map will readily indicate the greatest troubles. Every one knows that Russian railroads have collapsed, but the extent of that collapse has not been revealed. It is fair to assume the worst.

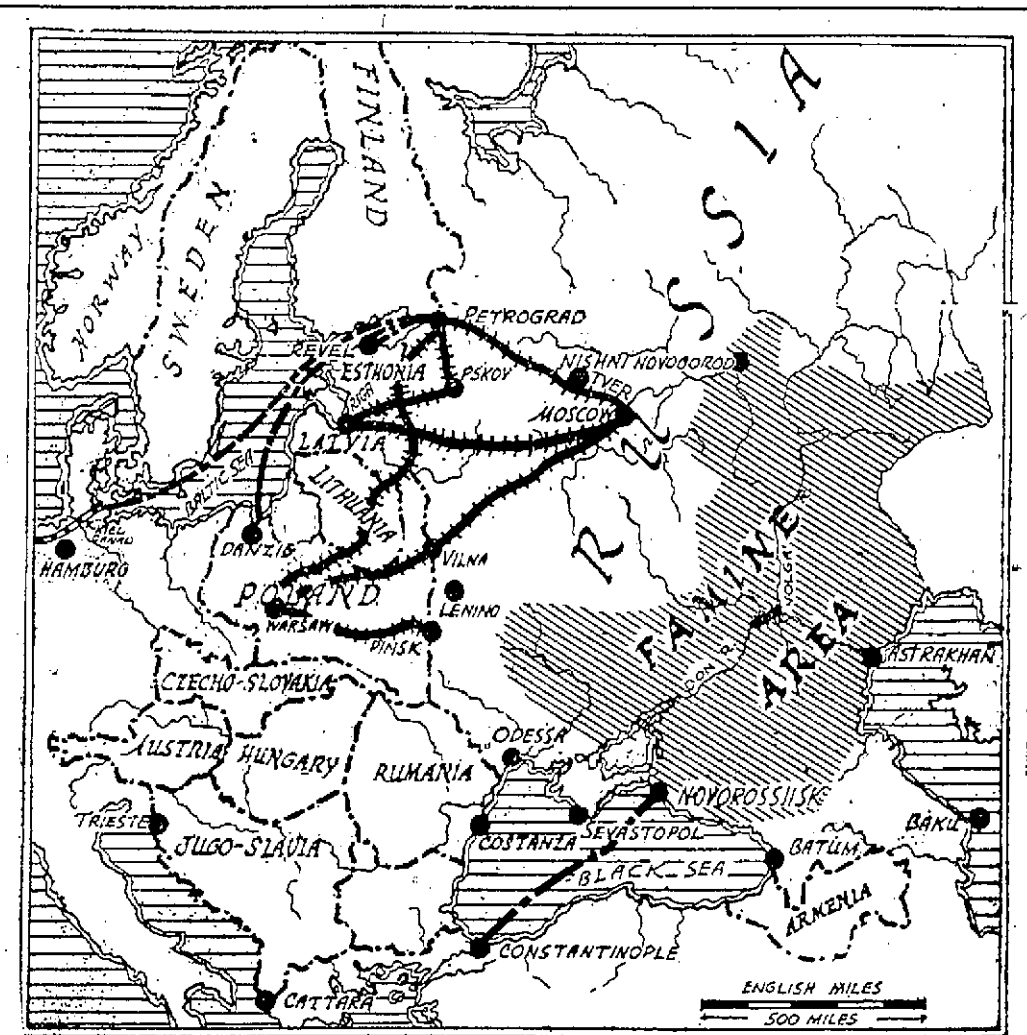

Try to Beat Winter.

The relief machine has shipping bases in Hamburg, Danzig and Revel, the latter nearest to Russia. The first supplies went to Petrograd from Riga by way of Pskov over the rail line shown on the map. Other supplies have been forwarded by water from Revel. The Moscow consignment was routed direct out of Riga to the Soviet capital. For the present it will be the effort to concentrate sufficient supplies in Petrograd and the last of the winter. This must be done before the next freeze, probably in December. Revel also will be frozen up. When that takes place the water route becomes useless, leaving the principal route of supply from Riga to Moscow.

Rail Lines of Little Help.

There is a railroad which links Petrograd with Warsaw, tapping a different stretch of country, but neither of these lines is in good condition.

(Continued on Page 11.)

Water lines indicated by dash lines from Hamburg and Danzig to Revel and Petrograd will be frozen by December. Railroad connections, indicated by crossed lines, all crippled, run from Riga to Pskov and Petrograd; from Petrograd to Moscow; from Riga to Moscow; from Warsaw to Petrograd; from Warsaw to Pskov. Nobody yet knows how much these lines can help in feeding a small fraction of the Russian population. Water lines, with probably wrecked rail links, go from Constantinople and up the Dan and Volga rivers into the vast famine area of the southeast. Shaded portion represents main famine area.

END ELKHORN FAIR WITH STOCK PARADE

With Attendance 30,000 Thursday, Walworth Has New Record.

[SPECIAL TO THE GAZETTE]

Elkhorn.—The blue blood stock of Walworth county and Southern Wisconsin gathered in review here at the fair grounds on Friday. The parade of the stock was the highlight of the highly successful Walworth county fair, which has broken all its former attendance records.

The stock in the parade was bedecked with the ribbons awarded by the judges, who inspected more than 300 cattle and 300 pure bred swine. Dairy and beef cattle, worth thousands of dollars, were shown.

With an attendance of 30,000 on Thursday, the Walworth county fair set a new mark. With 20,000 attending on Wednesday, the Walworth county fair set a new mark for an attendance mark for most of the other Wisconsin county fairs to "shoot at."

Each day the automobile field has been packed with auto visitors and by three o'clock in the afternoon on the two feature days, all available room taken and cars were refused admission because of the jam.

The fair for the automobile were sold out at 11 o'clock Thursday morning.

Friday's speed program included the 2:17 and 3:09 races and a 3:05 pace. The summary of the races on Thursday is published on the sport page.

During the fair week milk producers took advantage of the advertising opportunity of publicity, advertising the chief product of the county in attractive ways. Milk was dispensed free on the grounds and a contest was held to select the finest people that milk was the cheapest and best food.

Jobless Men Sold at Auction Like Negro in Slavery Days

[BY ASSOCIATED PRESS.]

Boston.—The auction block for men who are without work, and seeking it, was resumed on Boston Common Friday. A woman auctioneer, Miss Viola Roche, held the hammer on the men, who were again stripped to the waist, related their several abilities to labor and called for bids.

The crowd which thronged around the bandstand contained many women, who took an active part in the bidding. Unlike the auction of Thursday, work for a week or more at wages that bidding carried as high as \$25 a week was obtained by several men.

The party of unemployed went from their west end headquarters to the common through the noon day grove. The first three men gathered a considerable audience as they went. The first three men to be put up found jobs among the bidders, two getting two weeks with board, clothing and pay at the rate of \$25 a week from a theatrical producer and another \$25 a month with food, clothing and lodging for unskilled labor.

Many persons who took no part in the bidding contributed toward feeding the workless men.

There's News in the Ads.

The information contained in the advertising columns of tonight's Gazette is exceedingly interesting and, indeed, exceedingly profitable information in many instances.

The war is over. Prices in Janesville have come down to a reasonable basis, as may be evidenced in the men's and women's ready-to-wear clothing and shoe advertising. Prices are in some cases half of what they were a year ago.

The savings possible in groceries and meats may be gleaned by reading the advertisements on pages 4 and 5.

The latest amusements are listed in the advertising space. The last price reduction on automobiles is also largely displayed.

Gazette subscribers may save many times the price of their paper by reading and acting upon the bargains offered through the Gazette every night.

Japs Would Clear Problems Before Washington Meet

[BY ASSOCIATED PRESS.]

Tokyo.—Japanese diplomacy now is being vigorously devoted to the securing of a settlement of three outstanding problems before the opening of the Washington conference on Far Eastern questions and the limitation of armaments, namely those of the Island of Yap, Shantung and Manchuria.

Yukichi Oka, Japanese minister to Peking, it is understood, has received instructions concerning a renewed attempt to induce China to open negotiations regarding Shantung. Oka is expected to leave for Peking today.

Attitude Conciliatory.

Officials here describe the Japanese plans as conciliatory. They point out that Japan values any request for international or exclusive Japanese settlement, being content to make Tientsin an open port, but insisting on joint management of the railroad, mining and other economic enterprises hitherto directed by Germany. Under the Japanese plan China would retain full sovereignty over Shantung, the Japanese troops being completely withdrawn.

Officials' two and one-half million people Friday gave a characteristic expression of Japanese loyalty to Crown Prince Hirohito, their apparent, whose recent successful tour of the island had appeared to popular imagination and undoubtedly aroused new and more democratic interests in the imperial family.

Prince Addresses Crowd.

Major Goto gave a popular reception in honor of the crown prince, whom the people now regard as the real head of the empire owing to the illness of the emperor.

Friday night a mammoth procession, bearing 1,000 Japanese lanterns, serenaded Prince Hirohito's palace. He addressed the multitude, emphasizing the urgency of establishing world peace and alluding to the necessity of doing everything possible to contribute to the success of the forthcoming Washington conference on limitation of armaments.

Parks of Philadelphia, vice-president of the convention, said that the Klan was put down now by the federal authorities. "It would mean civil war in America," he said.

A resolution was passed by unanimous vote urging that a commission be formed for the improvement of facilities offered negroes on the railroads of the south. Dr. T. O. Fuller of Memphis, in presenting the resolution, said:

"We protest against having to hide in unsanitary cars for which we have to pay first class fares."

Dr. J. M. Dooley of Missouri, made an appeal for the negroes, saying that "he is neglected and the door of hope and opportunity is shut in his face."

Mangled Body of Salesman Is Found in River

[BY ASSOCIATED PRESS.]

Chicago.—The body of D. E. Daugherty, salesman for a large automobile company, was found mangled and mangled in the Desplaines river by Maywood police Friday. Daugherty was last seen Thursday, when he started with Carl Augustus, another salesman, to collect payments on an automobile. The police believe Daugherty was killed and fear that Augustus may also have met with foul play.

The automobile man which collections were to be made was supposed to have been sold to a man known as H. W. Church. Neighbors near the address he gave said they had not seen him since his wife left a week.

Telegram was sent to Wisconsin authorities asking them to watch for Church, who, police think, may be driving the automobile.

Prominent Detroiters Barely Escape Death in Burning of Gas Launch

Detroit.—Six men, including Phelps Newberry, son of Senator Truman H. Newberry, and several prominent Detroit businessmen, narrowly escaped death Thursday night when the 50 foot gasoline launch Kismet, owned by F. W. Guibert, burned to the water's edge in Lake St. Clair, three miles off Grosse Pointe, Detroit suburb.

After battling more than three hours against a heavy sea, the six men, in a small row boat, reached shore early Friday, Guibert, badly burned about the hands and, with his lungs scorched by the flames as he fought the fire, is in a hospital. He is expected to recover. The fire was caused by backfiring of the Kismet's engine. The heavy sea threatened several times to swamp the rowboat in which the party escaped.

Others in the party included J. T. Lynn and F. Hanna, Detroit businessmen; J. H. Brooks of Detroit and an unidentified man, engineer of the Kismet. Guibert is president of a Detroit manufacturing concern.

NARCOTIC AGENT SUICIDES AFTER RAID ON STEAMER

New York.—After a raid by federal prohibition and narcotic agents on the Greek steamship King Alexander, Friday, in which seven members of the crew were wounded by pistol shots, Frank J. Fitzpatrick, chief narcotic officer, here, who had taken part in the raid, committed suicide at a nearby pier, according to a police report.

Other federal agents were conversing with Fitzpatrick in a room of a ferry house near the King Alexander's dock in Brooklyn, when he shot himself in the heart, the police said. The wounded members of the crew had just been sent to a hospital and the prohibition and narcotic agents were returning to Manhattan with confiscated drugs valued at \$75,000 and liquor valued at \$15,000.

Fitzpatrick was 38 years old and before joining the federal force here, lived in Bridgeport, Conn. Other federal agents expressed the belief that the excitement and strain of the raid temporarily deranged him.

Liquor valued at \$50,000 and drugs valued at \$75,000, found aboard the ship, were confiscated.

Prohibition agents said two of them arranged on Wednesday with members of the crew to pay \$14,000 on the vessel Friday for the liquor and drugs. Those who went on the vessel, a member of the crew noticed a launch with the other agents approaching. He warned his comrades and the battle began.

TRAIL SLAYER OF THREE OFFICERS IN NORTH COUNTRY

NATIONAL GUARD COMPANY MAY BE ORDERED TO AID.

RESISTS ARREST

Man Sought on Statutory Charge Turns Gun on Police in Home.

[BY ASSOCIATED PRESS.]

Hibbing, Minn.—The National Guard company, a 100 men, probably will be called to aid several hundred citizens in their search for John Webb who, late Thursday, shot and caused the death of three police officers at Nelson, near here, when they sought to arrest him on a statutory charge.

The dead officers were Daniel Hayes, chief of police, Gene Cassidy, chief of detectives and William Kohrt, traffic policeman. Webb shot them with a rifle as they entered his home. Hayes and Cassidy were killed instantly and Kohrt died at a hospital.

May Use Soldiers.

Authority to call on the guardsmen was given by Adjutant General Rhinow. According to Sheriff Magle, a systematic man hunt will be pushed.

Police were informed that a man, who answered Webb's description, had called on a New Duluth storekeeper and offered \$45,000 for his automobile to aid him to escape. The storekeeper notified the police. Another report received here was that a man answering Webb's description had been seen heading through Duluth in an automobile.

Feeling Runs High.

The dead officers were popular here and feeling Friday was running high. Authorities fear that if Webb is captured alive by possemen he will be lynched.

Late Thursday Webb's 18 year old son, who was a ward of his father's arrest. When the officers were sent to arrest Webb, they were shot down.

News of the shooting spread quickly and, though temperatures, Monday, were in the 40s, a cold front with men were sent out almost immediately in all directions, no trace of Webb could be found.

PARTISAN POLITICS OPENLY RESUMED

Big Parties Merrily Wild Hammer While Public Waits Lower Taxes.

By DAVID LAWRENCE.
Copyright 1921, by Janesville Gazette.
Washington.—After six months of a truce that was more apparent than real, the democratic and republican parties have come out in the open and gone back to partisan politics. The democrats have begun an attack on the administration and, as usual, the incensed republicans have met party fights back with assertions of great achievement.

Behind the scenes there has been a hard battle between the two parties. The republicans have been clamoring for a change in the administration and have been pushing for lower taxes and better business conditions.

Back to Normalcy that things are back to normalcy in politics, much President Harding's letter to the nation, which was repeated in the short time that the democratic administration has been in power, has not been regarded as an improvement, although Mr. Wilson's letters to the nation have been regarded as an improvement.

The difference today is that the republicans are not so much interested in the administration as they were in the past. They are now more interested in the future of the country and the welfare of the people.

Compensations Disapproved.
Madison.—General Pershing and Samuel Compensations are having a newspaper debate on the subject of after dinner speaking and are reviving the controversy as to who won the war. Mr. Compensations is disappointed with the attitude of the republican administration toward labor and is making speeches saying that five million men out of work is proof of the fact that the republican administration is not doing what it should.

Other labor leaders are crying that while Congress takes a vacation, there are millions of workingmen who are taking a "vacation" without pay.

All the partisan bickering, however, will not be immediately of avail to either side, for disinterested political observers are confident that nothing has happened as yet on which to base a definitive judgment concerning the congressional elections of next autumn. The contest in New York is a special election is being held to fill the vacancy.

[By Associated Press.]
London.—The world's conference of Methodists Friday morning adopted a resolution declaring the conference hoped complete success would crown the negotiations between the British government and the Irish republicans for a solution of the Irish question.

The delegates unanimously voted that copies of the resolution be sent to Premier Lloyd George and Edmund De Valera, the Irish republican leader.

The question of a Methodist union was the chief topic of Friday's program. S. D. Chown of Canada, who presided, spoke on Christian unity and the delegates discussed the aspects of a Methodist reunion. These were Henry Smith, president of the United Methodist church; Bishop E. D. Mazon, Methodist church south; Sir Robert Parks and Henry J. Taylor of the Primitive church and Bishop C. C. Clement of the African Methodist church.

All the speakers emphasized the need of a closer union of the church and divided only on the question of administration. Regarding the question of union of the Methodist church and the Methodist church south in the United States, he declared amid applause that those two great Episcopal Methodisms in America must be one or must answer before the judgment bar of God.

Compensations Disapproved.
Madison.—General Pershing and Samuel Compensations are having a newspaper debate on the subject of after dinner speaking and are reviving the controversy as to who won the war. Mr. Compensations is disappointed with the attitude of the republican administration toward labor and is making speeches saying that five million men out of work is proof of the fact that the republican administration is not doing what it should.

Other labor leaders are crying that while Congress takes a vacation, there are millions of workingmen who are taking a "vacation" without pay.

All the partisan bickering, however, will not be immediately of avail to either side, for disinterested political observers are confident that nothing has happened as yet on which to base a definitive judgment concerning the congressional elections of next autumn. The contest in New York is a special election is being held to fill the vacancy.

State Capitalism Is All Right, Explains Lenine; Find Capital Necessary

[By Associated Press.]
London.—In the first number of the new Labor Monthly, Premier Lenine explains the discovery of the Soviet government of Russia that it could not get along without capitalism in some form and why it has compromised on what it calls "state capitalism."

"State capitalism," he says, "is incomparably higher economically than our present economic system—that is one point; and secondly there is nothing in it that is terrible for the Soviet government, for the Soviet state is a state which guarantees power to the workers and the peasants."

One of the simplest cases or examples of how the Soviet government guides the development of capitalism along the path of state capitalism, of how it "plants" state capitalism in concessions, he says, is the concessions are necessary, but not everybody fully appreciates the significance of concessions.

The advantage in the form of the development of productive forces and an increase in the quantity of products available, namely, the hundreds of enterprises, mines, forests, etc., we cannot develop them all; we have not enough machinery, food or transport.

"In planting" state capitalism in the form of concessions, the Soviet government strengthens large production against small production, the advanced of economic development, machine production against hand production. It increases the quantity of products of large industry in its hands and strengthens the state regulation of economic relations as a counter-balance to the petty bourgeoisie, anarchic relations.

THEATER CLOSING ON SUNDAY URGED

Reform Bureau Head Speaking Here, Also Demands Abolition of Sabbath Ball.

Closing of all motion picture and vaudeville theaters, abolishment of stores on Sunday and closing of the baseball game and other commercial sports were urged by Dr. Wilbur F. Crafts, Washington, D. C., superintendent of the National Reform Bureau, at a conference of ministers at the Y. M. C. A. Thursday afternoon.

Dr. Crafts advocated the quiet observance of Sunday instead of the continental Sunday of dissipation. He declared that 25 per cent of the population who favored the Sunday theater and baseball game and other commercial sports were not laboring men, as has been claimed, but the business men who make the money. He said they have no right to make money and that one couldn't believe that there was a possibility of commercialism entering into it.

"There is no country in the world where people are being robbed as in the United States today. One fears nowadays to carry money or valuables with him. It is a serious situation," declared Dr. Crafts. "It will multiply as long as the church does not have a chance to lead boys in the right path through Sunday school and Bible study."

Dr. Crafts told of his hunting in the "wilds of Pittsburgh" for two days, cleaning out salacious magazines. He visited 51 news-rooms. He said a great deal can be and seldom resorted to stern measures. He said the evil influence of bad literature was small compared to the motion picture and that reformers were directing their attention on the latter.

Seek Worthy Class.—"There are three classes of people," he said. "One is the reliable good, the second is the reliable bad, and the third is the wobbly or middle class. There is little hope for the second class, but if we get the wobbly class on the right side, we have two-thirds of the people for law and order."

All the churches, with an exception here and there, according to Dr. Crafts, have "come out strongly against Sunday profligacy, as the Catholic archbishop of Milwaukee termed Sunday theaters and baseball. Commercialized baseball, Dr. Crafts said, is an injury to health."

"We ought to have one day a week when we do something else besides sit upon a wooden bench and chew peanuts and howl at the umpire," he declared.

Talking about the motion picture, Dr. Crafts said an investigation in Washington, D. C., showed 25 per cent of the pictures had something bad in them. He said a clean program is rare and that there is a criminal tendency in most everyone.

"Motion pictures are not fit for anything," Dr. Crafts said. "They are promoted mostly by capitalists. 'What we ought to have is a national censorship of motion pictures to kill the evil at the source. The motion picture men are going into politics to defeat any candidate who is friendly to talk and he seldom resorted to stern measures. He said the evil influence of bad literature was small compared to the motion picture and that reformers were directing their attention on the latter."

Lawlessness Great Evil.—Speaking at the Baptist church at 2 p. m. Thursday, Dr. Crafts said: "The greatest stain on our country at this hour is not drunkenness, or adultery or gambling or pugilism or even commercialized politics in league with commercialized vice, but something broader than all these, because it includes them, namely, widespread lawlessness."

"Dr. Crafts is more widely known to the public as the man who attempted to stop the Dempsey-Carpenter fight at Jersey City. The assistant attorney

TROPICAL STORM ON WAY.—(BY ASSOCIATED PRESS.) Washington.—The weather bureau early Friday advised caution for general, according to Dr. Crafts, has said that Tex Rickard ought to be locked up for attempting three times to show the pictures of the Dempsey-Carpenter fight. Dr. Crafts wrote the law, he claims, which Rickard is trying to evade. Dr. Crafts is trying to have the American Athletic union make an investigation to determine whether Dempsey is entitled to the rights of sportsmanship, and to inquire into charges that his auto was seized twice for debts, that he was named in a correspondence in a divorce suit and that he did not pay his income tax and is liable to a fine.

LARGE VARIETY OF FRUITS ON MARKET

Quality High, Prices Same as Week Ago: More Apples Arrive.

All fruits that have been on the local market for the last two or three weeks remain in good quantity and quality, and prices remain about the same. A large variety of fruits for this time of the season is obtainable at all the stores at reasonable prices, and although fall is approaching, prospects for fruit until late are good.

Peaches, although they have passed the height of the season, are still in quantity and price. By the bushel for canning they sell for \$4, while in smaller quantities they cost 25 to 30 cents for a good sized basket full. The shipping season for grapes has just arrived, and although the home grown ones are selling at the markets for different prices, ten cents per pound or more, the grapes are in the price asked for in a number of the stores. The Niagara and red grapes are disappearing, but can be purchased in places for 25 cents per pound. There are still on the up for the grapes, and he quite a while yet before they disappear. For canning they cost \$3 and \$3.50 per bushel, while those for eating range from 35 to 45 and 50 cents per dozen in the market.

The apples are in the market for the real fancy apple. By the dozen they sell for 40 cents and higher. Bananas remain about the same, selling for 10, 12 and 15 cents. Oranges change little in price or quality, ranging all the way from 40 to 65 and 70 cents per dozen, according to size and variety. Lemons, having taken another jump, are excellent for the second week in September and promise to remain good for a long time. The price for the same price that has prevailed for the last month or six weeks, costing from 10 to 20 cents, depending on size. Watermelons cost 20 and 25 cents each.

The same commodities and prices are seen in the vegetable market this week also. Tomatoes are selling now for 4 and 5 cents per pound and are at their best for eating and putting up. Sweet potatoes are selling good, although the season has hardly opened on them. They can be purchased for 4 cents per pound and at 5 cents per pound for a quarter. The other vegetables being 7 cents per pound and the best 20 cents per pound. Cabbage is 4 cents per pound.

Roots. Beets and carrots remain at a low mark of 5 cents per bushel. Spanish onions are obtainable for 5 cents each for the large ones, or 10 cents per bushel.

Quantities continue to come in in quantities and those for pickling for dills sell for 85 cents per bushel, a new low mark. Those for eating are 2 for 3 and 2 for 10 cents. Pickles are 4 cents per bushel, 4 to 8 cents per stalk, depending on the amount and quality. Green peppers are 2 for 5 for the extra large, and in some places sell for 4 cents per dozen. Potatoes are a little higher, and will continue to go up in price, according to the dealers. They now cost 60 and 70 cents per peck. Eggs are about the same and range from 22 to 35 cents and higher. Butter ranges from 40 to 45 and 47 cents.

OPERATORS ANSWER MINERS GRIEVANCE WITH OTHER CHARGES

(Continued from page 1) of government. In the non-union coal fields.

The non-union operators added that "we can not under any circumstances participate in conference with representatives of the United Mine Workers of America and the adjacent non-union fields in West Virginia and eastern Kentucky should be unionized," the Logan memorial said. "We would not officials of the United Mine Workers in control of the production and distribution of all the coal in the United States. This would give these leaders more power over the people of the United States than that held by any other organization in the world." In 1915 the memorial said, the United Mine Workers attempted to force the country into unionization, and "only the production of coal from non-union fields prevented complete success."

Any Union Mines Closed. The non-union fields at present are running full time with plenty of miners willing to work and are supplying coal at lower prices, while union mines are closed, the memorial asserted.

President Gompers of the American Federation of Labor was accused by the Williamson operators of "unfairness and untruthful statements" in calling the non-union fields "the last stronghold of autocracy in West Virginia."

The only autocracy now or ever known in West Virginia," the memorial continued, "is the autocracy which the United Mine Workers seek to establish. Their whole object is now and has been since 1912 to cripple all the protecting powers of government so that their army can march into the territory of non-union miners, shoot down the workmen and destroy the mining plants. This is a part of the plan to possess themselves of all the mining properties in the United States and Canada."

Their association has been in open hostility against all power of government since 1912. Every action of every court that has sought to prevent their lawlessness has been obstructed by leaders, publicists and spokesmen. Every governor of this state from Glascock to Morgan, regardless of their policies, has been resisted, defied, arrested and threatened and law officers have been murdered from ambush."

GAS PRICES MAY TAKE ANOTHER SLUMP HERE

Further reduction in gasoline prices is expected by the filling station operators, although prices now are comparatively low, being 20.5 to 24 cents a gallon. The Standard Oil station agents were of the opinion gas would be down to around 19 cents within a week. Motor oil prices range from 45.5 cents to 60 cents.

Janesville Youths Will be Tried in Beloit for Theft.

District Attorney S. G. Dunwiddie had a busy session in the Beloit municipal court on Thursday. The bulk of the cases were centered on alleged illegal liquor transportation and manufacture of bootleg directly or indirectly.

OUSTED FIREMAN DEMANDS JUSTICE

Man Dismissed by Chief Murphy Seeks Hearing Before Board.

Outing of John O'Leary from service on the city fire department some two weeks ago by Chief Con. J. Murphy will occupy the attention of a special meeting called for 4 p. m. Friday at the mayor's office at the city hall. Other matters pertaining to both departments are due to come up as this is the first meeting the commission has had in more than a month.

It is expected Fireman O'Leary will appear before the commission with his attorney, J. G. McWilliams, to demand that he be reinstated and offered a hearing. He will make a statement for full pay from the time he was ousted until such time as the commission makes disposition of the case after a formal hearing to which he is entitled under the civil service rules governing the fire department. He claims he is still a fireman legally.

O'Leary's dismissal by the chief has been the subject of considerable controversy the past two weeks. The chief says he had many reasons for ousting the fireman, chiefly that he was an agitator for better working conditions in towns and on rural routes in Jefferson County. Call by phone or write Circulation Mgr., Gazette.

MAXFIELD REVERSES JUSTICE'S RULING

Judge H. L. Maxfield on Friday reversed a decision given by J. P. Reulen, justice of the peace, Evansville, in the civil action of Mrs. Mose Smith vs. Thomas Jarman. Judgment was granted in the local court for \$125.21 in favor of Mrs. Smith on a note. The defendant was victorious in the lower court so the plaintiff appealed. Constable Frank Britt was granted judgment of \$24.00 against Harper as the balance due on the latter's fine of \$100 and costs two months ago, which was paid by the plaintiff. The case of Ashton vs. McNally was adjourned to Sept. 20.

MAY CLOSE TIMBER CAMPS SAY OWNERS

Timber Dealers Here Say Rates and Wages Stop Logging.

Janesville men who own extensive timber interests and lumber dealers on Friday declared that full operation of lumber camps this winter in the northern states depended on two things—reduction in freight rates and settlement of the wage dispute in the building industries.

The condition of the lumber market, the large surplus stock and the lack of demand are said to be responsible for conditions in the western woods, and those in northern Wisconsin and other Great Lake states. Operators have not made a decision on their lumber camp policies, declared until October 1.

Consolidated Suspension. West coast operators, it was explained by the dealers, were considering a general suspension. Such a policy would reflect on the action taken in Wisconsin woods.

"The lumber situation in the western districts is a matter to be decided later," declared M. G. Jeffers. "The same statement was made by others."

There will not be much activity in getting out timber until freight rates are reduced, and it is reasonable to believe that rates will not come down until the railroad operators have adjusted and cut their expenses," was the explanation offered by Attorney Jeffers.

Decision of Landis. "Much depends on what comes of the industrial decision of Judge Landis. If the building trades accept the new wage scale, and material costs continue to drop, building will be resumed generally. This will necessitate the operation of the lumber camps," stated one owner of vast timber tracts.

Self but the freight rates overcome any reduction in prices. Building in and around this city is increasing, but in the larger cities there is not much doing. The builders waiting to see how labor takes the adjusted wage schedule," say the dealers.

Selling Surplus Supply. Much of the surplus lumber is being presented to the city market by the loggers, especially from the western states. The Wisconsin operator must meet this competition. The west coast operators are said to produce about 15 billion feet and the Great Lake states only about 500 million feet, indicating which section controls the lumber market.

CHAPTER XVIII.
COMPLICATIONS INCREASE.

The telegram came in the middle of the morning, and I did not open it. I knew it could only be from Aunt Harriet, and I could guess the contents. I knew at least, that she would be angry.

Meantime, I had told Ella and Margaret and Ted and the rest, and everyone had been delighted. Margaret gave a little impromptu dinner for me and my usually cross and quiet husband became very charming and talkative. Mrs. Taylor came around the next morning to see me and kissed me and told me how glad she was.

I know Winthrop is very much in love," she said. "Though you have not known each other long, I just know you will be happy. I had known Mr. Taylor more than a few months when I married him.

"But I don't suppose you'll be married for a while. Your aunt will have to be kind and you'll have to see her, of course, and there's your father. And your mother—I beg your pardon, Constance, but I feel I have to ask that. You never mentioned your mother. I suppose she has been dead for some time.

"I don't know," I answered calmly. Mrs. Taylor looked shocked, both at my statement and my calm manner of making it.

"Don't know—what do you mean?"

"I never knew her. Father won't talk about her. Every time I asked about her he simply kept quiet and would not even answer. That's when I was a child, when I saw other girls' mothers and wondered where mine was.

"Once he told me she was dead. But his voice was odd, so I don't think he was telling the truth. Once he made me promise never to ask anything about her, to say to myself that so far as I was concerned she is dead, and to forget about it.

"Don't your aunt—her sister—"

"No, father's sister. She wouldn't tell either. I have the vague recollection of one of my earliest. It's very faint, but I remember it. It was a child, with lots of gold hair and I think blue eyes. It's so vague I wonder whether it isn't something I made up and pretended it was my mother.

"Poor dear child!" Mrs. Taylor sympathized. "What a way for a baby to grow up. No mother—and your father away—"

"Oh, Aunt Harriet really does like me, and I've always had good nurses and governesses—anyway, I have you for a mother now.

"Nothing I could have said would have pleased her more. We went into each other's arms, and she kissed me and called me her "darling daughter."

BEAUTY CHATS by Edna Kent Forbes

EXPRESSIVE EYES

A little incident that happened the other day impressed me so much that I think it quite worth passing on to some of my readers. I stopped in at the home of an old friend whose daughter had just returned from a summer vacation and who was about to go to another city to take up some social work. She had been in college four years and I believe graduated last June. When I saw her a couple of years ago she was a complete non-entity, the sort of a girl that you meet again and again and forget as soon as you are away from her. She had nice enough features but a perfectly blank face and absolutely characterless eyes.

I puzzled for a long time about the change in her, wondering exactly where this new brightness came from. The regular features were just the same, the skin was just as pale and clear, but her face now was the face

The eye's beauty is in its expression. That one remembers with pleasure afterward. Then I discovered that the whole change was in her eyes, which, instead of being blank, had become animated and expressive. And this small but important change made her beautiful where she had been nondescript before, and impressive where she had been a social blank.

I do not know whether expressive eyes can be consciously cultivated or not. I am inclined to think they can be, though there is always the danger that a girl might make herself affected. I think in this more than in

What Henry Wanted

Said Farmer Quinn: "I calculate about the finest place this side of people up at your house must be plumb crazy to see your boy Henry when he gets home tomorrow, coming all this way, around the whole world."

Said Farmer Haskell, smiling: "I low as how we are."

"Hope he'll settle down and take to farm. Life like you can live. Four years in agriculture college made a man of him. Never had a better hand on the place. He's hot at it every day, and at night he sits around and studies books under a microscope, or boils pasture grass and analyzes the chemicals—something like that every night. Can't pull him to the movies."

"Say, there's a boy worth having!"

"Yeah, I ain't grumbling none. But Jim ain't been no farther away than from here than to the school and back no ways at all, you might say. Your boy has seen the world—that's a whole lot."

"Well, that's so, but he is going to like farming."

"You can't tell a thing. He's been ascending my hill-dary. And some patches of the places he's been to, and say, of all outlandish sights: Don't it beat all the way some folks live? After all, them heathen lands wouldn't be surprised none if he thinks Sangamon county is just

DAVEY CROCKETT, THE HERO OF THE ALAMO

"Be sure you're right, then go ahead," was Davy Crockett's motto. He fought for the right, then went ahead to a glorious death in the Alamo. Crockett was born in Tennessee in 1780. He came of fighting stock for his father, a tavern keeper, had been a soldier in the Revolution. Young Crockett's early years were spent in running the Tennessee woods, hunting. He became a renowned bear hunter, a fame which he shared with his favorite rifle, "Old Betsy."

When the Creek Indians went on the war path in 1813 Crockett tossed "Old Betsy" on his shoulder and marched away to fight the Indians. He served as a scout under Gen. Andrew Jackson and was in the great battle of Tohopeka when "Old Hickory" defeated Weatherford's warriors.

After the Creek war was over Davy turned cool toward me, as if I were deceiving him.

"Honor means a great deal to the Ceylonese. My one way to square it with him is to produce my bride—"

The white of snow had come into the cheeks of Mary Ann, then the red of very red plums. Her head shily dropped. Farmer Quinn knew what that meant. "A daughter among the heathens!" he exulted.

returned to Tennessee and entered politics. From legislator he rose to state legislator and next the renowned bear hunter and scout was sent to congress where he served two terms. In February, 1835, Davy with 12 of his Tennessee friends arrived at Mission del Alamo where Col. William Travis with a little army of less than 200 men was defying the Mexican dictator, Santa Anna.

Santa Anna had a force of 5,000 men, and although the Texans had a chance to escape before this overwhelming army cut off their retreat, they refused to do so. The Mexican general surrounded the rude little adobe fort. His demand for its surrender was met with scorn. Then he raised the red flag which meant, "No quarter," and attacked.

The long rifles of the Texans mowed down the Mexican soldiers driven to the attack. On March 6 Santa Anna prepared for a grand assault. Twenty-five hundred picked men were detailed to be hurled against the fort. The first assault was beaten back with heavy loss. A second failed, but in the third desperate attempt the Mexicans broke into the church. One by one men went down. At last only Davy was left. "Old Betsy" fired her last shot. Then Crockett seized her by the barrel and swung her about his head and advanced me to try it. I am not feeling better than for fifteen years. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and always and advised me to try it. I am not feeling better than for fifteen years. TO RELIEVE CATARRHAL DEAFNESS AND HEAD NOISES.

If you have Catarrhal Deafness or are hard of hearing or have head noises go to your druggist and get 1 ounce of Parmitin (double strength), and add to it 1/4 pint of hot water and add a little granulated sugar. Take one tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who has Catarrhal Deafness or head noises should give this prescription a trial.

A Tough Situation

"My wife and four children were dependent on me for their living. My stomach and liver trouble of five years had made me dependent on medicine, and I was gradually wasting away. It was a tough situation. My cousin in Columbus wrote me about having taken May's Wonderful Remedy and advised me to try it. I am not feeling better than for fifteen years. Dinner Stories

There are still one or two of the old-time "stock" theatrical companies touring the small towns. One of these has at least 20 plays on its list. Re-

After an embarrassing silence of about two minutes he blurted audibly to the prompter: "What's the line?"

"What's the play?" the prompter blurted back from his little box, as he grabbed a pile of two or three dozen books and began to run through them feverishly.

The diner sharply called the waiter to his table.

"Waiter," he exclaimed, "what a tiny portion of chicken you have given me!"

"I'm sorry," murmured the delinquent, "but it'll take a long time to eat it, sir."

A Belgian woman, who lost her husband in a railroad accident, received from the company \$2,000 by way of compensation. Shortly afterward she read of a traveler getting twice as much for the loss of a leg. She went to the company and protested that the difference was unfair.

"Madam," said the official, "the two awards are perfectly fair. Four thousand dollars won't provide the man with a new leg, but for \$2,000 you can easily get a new husband."

FOUR TO COMPOSE U. S. DELEGATION

Small Body at Disarm Conference Hinted; One May be Democrat.

[By Associated Press.]—Washington, Sept. 8.—The main American delegation to the disarmament conference probably will not have more than four members and that one of the four probably will be a democrat.

In reply to an appeal from Representative Jeffers, democrat, Alabama, that a former service man be named as one of the American commissioners, the president under date of September 7, wrote Mr. Jeffers: "It does not seem likely that it will be practical to bring an ex-service man of experience into the conference, because of the very limited number in the delegation and the further fact that the larger military and naval information necessary to justify production will necessarily come from actual service men and military problems."

The president also told Mr. Jeffers, he was writing the letter "on the assumption that the main delegation will be a very small one, probably not exceeding four in membership."

After commenting on the selection of Secretary Hughes as head of the delegation and Senator Lodge as one of its members, Mr. Harding said: "Because the matter is wholly patriotic and national in scope, it should be very desirable to have the outstanding representation of the present minority in congress."

No mention, however, was made as to who, in addition to Secretary Hughes and Senator Lodge, probably will be chosen as members of the delegation, but the belief prevailed in Washington Friday that Billie Root, former secretary of state, would be given a place.

He was taken to the DePaul hospital where the foot was amputated. Patchen has but one arm, having lost one in a buzz saw accident.

Sees Limit in Cancer Control

Milwaukee.—The medical profession has reached the limit in what it can do for the cure of cancer, the opinion of Dr. Joseph C. Bloodgood, Johns Hopkins hospital, who read a paper Friday before the state medical association on "What surgery has accomplished in the permanent control of cancer."

Cure of cancer is ineffective, Dr. Bloodgood contends, and control of the disease must be by treatment before the disease develops or while it is still in its early stage. The problem is primarily one for the public in getting medical advice as soon as there is a possibility of cancer.

Muscle hath power to soothe not only the savage beast, but the person about to submit to a minor operation, according to Dr. Robert E. Farr, Minneapolis, who also addressed the convention.

"A photograph playing something music has been found indispensable in the operating room," he said. "It soothes the nerves of the patient and makes him forget that he is being cut into."

Ruth Equals 1920 Record

Philadelphia.—"Babe" Ruth Friday equaled his world's record of 54 runs for the New York Americans in the fourth inning against the Philadelphia Athletics.

The Yankees' slugger established the record on Sept. 29 last year. Ruth's homer was probably the greatest drive ever hit at Shibe Park. The ball sailed high in the air in deep left center and cleared the Somerset street wall of the park, cutting through a tree growing on the curb.

ARREST DEPUTIES AFTER ESCAPE OF FEDERAL PRISONERS

Toledo.—Sam Zimmerman and Andrew Szemko, deputy sheriffs on duty at the Lucas county Jail Labor Day when Joseph Urbaytis, George Rogers, alias Lewis and Charles Schultz, convicted of conspiracy in the \$100,000 post office robbery here last February, escaped. They were arrested Friday on warrants charging "voluntarily suffering federal prisoners to escape." No trace of any of the three escaped bandits has been found. Federal authorities announced Friday.

CHICAGO LABOR QUITTING AFTER WAGE REDUCTION

Chicago.—Hoisting engineers and pipelayers unions had apparently stopped work on all large building jobs in the city Friday, following the wage cut announced by Judge K. M. Landis in his arbitration decision Wednesday.

Numerous walkouts were reported, although two groups—the electricians and the bricklayers—have already agreed to work. A new agreement was drawn by the plasterers, who refused to enter the Landis arbitration, for presentation to the contractors.

Landis presented to Judge Landis on his return from a delayed vacation, begun Thursday among the Michigan miners.

FARM BUREAU SWATS EQUITY COOPERATIVE MARKETING SCHEME

St. Paul.—Proposed arrangements for concentrating grain marketing machinery in Minnesota, South Dakota, Montana and Wisconsin in the hands of the Equity Co-operative Exchange as the exclusive sales agency of the United States Grain Growers, Inc., would endanger the success of the whole enterprise, the application of Harvey H. PILGRIMS VISIT ROCK OF AGES, WHICH INSPIRED THE WORLD FAMOUS HYMN

Pilgrims from all parts of the world gathered at the foot of the Rock of Ages at Burrington Coombe, Somerset, England.

Pilgrimages to shrines and famous places are always more plentiful in the summer months, and it is in August that the Rock of Ages usually attracts great numbers of visitors. This rock, which is situated at Burrington Coombe, Somerset, England, is the one which inspired the hymn, "Rock of Ages, which inspired the hymn." The photograph shows a scene taken at the foot of the rock with hundreds of pilgrims from every part of the world visiting the famous spot they have sung about.

AT THE THEATRES

Another good bill is on the boards at the Myers theatre. Manager Charles G. Boutin has gathered a little "court of the nations" in the program, the changes Thursday night. An American girl starts it off; then comes a Scotchman; a Jew; a Swede; and an Arabian.

A new departure in playlets is contained in Harry Mason & company's sketch, "Getting the Money." It combines excellent portrayal with clever utilization of the movies. The scenic sets carry out the new abilities of the Myers along this line, particularly in lighting effects.

There are Swedes and Swedes on the stage but the one in "The Swedes" act is a Swede who is not so slow witted as he looks. "This is an act that pulls a curtain call."

Sensational whirling handkerchiefs combined with taking Arabian action feature the performance of Victoria and Dupree. A Scotch interpretation of the American buck and wing and speedy "corkscrews" plus a fair bit of chatter make up the act of Seltzer & Scott. Paula concludes a dancing and gymnastic act with a beautiful "pinwheel" suspended by a "tooth-hold" to a swinging bar.

There are some side-breaking laughs in "Fatty" Arbuckle in the "Dollar a Year Man," some horse-play and queer situations, but the picture is somewhat drawn out and overdone.

They will sleep in the camp buildings. The program for this summer will be planned. William Mills, is the president.

So it goes. "Tessie, in due Great Beyond everybody will have a gold mine."

HUTTON SAYS FIGHT IS LIFE OR DEATH

Speaks to Methodist Conference on Prohibition and the Church.

(Special to the Gazette.)
Sheboygan—Addressing the Methodist conference in Sheboygan, Wis., on Sunday, Sept. 4, Hutton, state superintendent of the Wisconsin Anti-Saloon league, said:

"We are known as a Christian nation, because ours is a Christian constitution." He pointed out that the constitution after the constitution of the pilgrim fathers' church, and that the church had sponsored most of the amendments since then, such as the Bill of Rights, the three anti-slavery amendments, the prohibition and suffrage amendments.

Referring to prohibition, he said that by giving labor savings bank accounts it placed them in a position to win better wages and working conditions, and at the same time their great efficiency enabled employers to pay their workers less. He said the prohibition is the savior of labor; the home-brew politician is the betrayer, betraying him with a kiss to obtain office. He said it took hard work by the church to place prohibition into the constitution. "Without continued hard work it will be removed by soft words."

Wisconsin Vote Gains

He pointed the vote of Congressman J. D. Beck against the anti-brew bill as a wet gain, and said: "It was dry church votes, added to the solid vote, that made that vote possible." He said that the same combination made the veto of the Matheson bill possible at Madison, leaving in the prohibition Eden, like Mother Eve, they listened to the serpent's suggestion that the prohibition light is over, and swallowed the apple, skin, stem and core. He said prohibition came because dry refused to divide on any other line. He said the prohibitionists and professional politicians are now seeking to divide them on racial, religious, party and factional lines, and predicted that if they became so divided prohibition would be repealed through the enactment of legislation declaring beer non-intoxicating, and said: "In that case we should not only lose prohibition, but disarmament and world peace." On this point he said:

Beer and World Peace

"What has beer to do with world peace? Everything. Beer and light wines, home brewed, are the cause of liquor traffic. The plan is to legalize beer and put a billion dollars taxes on it. That is just the cost of maintaining the army and navy for a year. Now it is raised by direct tax. Therefore the taxpayer is now clamoring for disarmament. They have compelled the president to call a conference already. If we maintain prohibition and enforce it, other nations will have to adopt it to compete with us. Then their taxpayers will clamor for disarmament too, and the world-wide war will develop into a world-wide will of the one to disarm, which will compel international disarmament."

He said if the church continues the fight to maintain prohibition, the fight, though hard, will result in world peace. He called that "the way of the cross and the crown," pointing out that a civilized world would pay tribute to the church for its peace. If the church should disband prohibition lawlessness would repeat prohibition, destroy the hope of world peace, and the blame would be laid at the door of the church, characterized that as "the way of defeat and death."

Fight of Life or Death

"To fight is life; to quit is death. To fight is right; to yield is sin. The church is the only body that fights; it will see it through. The church needs the Anti-Saloon league as it never needed it before. So do not deceive; prohibition is the issue; Wisconsin is the hot center. What say you, brothers and sisters? Quit? Or fight?"

In closing, he told of a state official, conversing with a group of friends on the state fair grounds, this official started the churches for keeping up the prohibition fight. A Civil war veteran heard him and said, "Are you an American citizen?" The official replied, "I was born in this country and am now a state officer." The old soldier answered, "I don't care where you were born, nor what office you hold, no true American would stir the church as you have. The constitution of the United States confers more liberty, freedom and rights than any other document in the world. It was the church that put them into that constitution. I fought under the flag for that constitution, and God helping me, I'll whip you now." His friends drew him away, but that was the spirit in which Hutton spoke when he drove the money changers out of the temple. "Let us pray for a rebaptism with a spirit that will send us forth to drive the money-changers out of the temple of our state and our nation."

Bowlers Here Appear to Favor 84 Game Schedule

While the discussion at the last meeting of the Janesville Bowling association was for a 63-game schedule in the City League this year, a growing sentiment among the bowlers is that four times around, or 84 games, should be played again this year.

A 63-game schedule is too short, is the declaration. It ends the season in February and leaves more than a month of good bowling weather in which the men will be idle.

If the league is to send eight teams to the state tournament at Madison, it would be foolish, the men say, to end the season in February. They would be idle all winter while waiting for the time for the meet, is the opinion.

In a letter to the president of the association, Harold J. Lampert, the year's secretary and treasurer this year, writes that he will endeavor to be in Janesville to attend the meeting to be held at City Hall next Wednesday night. He says: "I sincerely hope that the bowlers will get together and cooperate. If organized bowling is to flourish in Janesville this is absolutely necessary." Lampert says he will not be able to bowl for several weeks, probably not until November, on account of his recent operations.

Local Swimmers Ready for Race in Milwaukee

BULLETIN. Milwaukee was called Friday morning by Tom Larkin, physical director of the Milwaukee Athletic club. It was announced that part of the plunk could not be carried out. A general swimming meet will be held instead in the M. A. C. tank early in October. According to Director Bergmann of the local "Y," the boys from Janesville will be entered in the same. This will give them a longer time for practice. The longest event will be a half mile instead of a mile.

Primed after a week of instruction under the guidance of Physical Director A. D. Bergmann of the "Y," the four Janesville swimmers who compete in the Milwaukee A. C. swim at the Cream City, Saturday, are in excellent shape. They are resting Friday after swimming the two-mile course for the past three days. The boys are to leave here at 7 o'clock Saturday morning. Upon arrival in Milwaukee, they will be taken over the course in a boat by Albert Lee. The swim takes place at 2 o'clock Saturday afternoon. The local boys entered are Herman Graesslin, Henry Schwager, Herbert Roy and Washington Post. Graesslin has been in Milwaukee the past two days on business. He will go from there to Milwaukee, where he will meet the other boys. Director Bergmann will accompany them.

Rickard Will Develop New Title Material

New York.—New material must be found if boxing is to remain popular, promoter Tex Rickard declared Friday, adding that the day of the mammoth purse and bankrupting some prices is passing.
"Provision must be made for replacement material," he asserted. "I am convinced that the public is tired of seeing the same boxers competing time and again."
With this idea in mind, Rickard is planning to increase the number of amateur bouts to be staged at Madison Square Garden this winter and he hopes to develop one or more prospective candidates in each class with championship possibilities. While boxing bouts will be held in the local arena at least once a week, after Sept. 22, few bouts have as yet been arranged and no special effort will be made by the promoter to card prominent boxers in any particular class.

"With a few exceptions the champions and their nearest rivals, have not seemed to me," said Rickard, "and the results of the contests have not always proved satisfactory. In some cases the bouts have had the appearance of being a routine affair. New and ambitious candidates for titles are needed to liven up the sport."

The boxing commission of New York state has taken a wise stand in requiring boxers to appear on a percentage basis in place of flat guarantees.

"I have no particular star bouts in mind at present, but hope to use Carpenter, Dempsey, Willard, Tommy Gibbons and others during the next 12 months. If reasonable financial terms can be arranged, I have received a letter from Willard stating that he has started training, but will require six months work before he makes his attempt to regain the heavyweight title. That, probably means that he will not box in a championship match before next summer."

SAWDUST BOX AND SPITTOON VANISH AS WOMEN ADVANCE

(BY ASSOCIATED PRESS.)
Chicago.—Women's advent into public life is causing the gradual but sure extinction of the crock spittoon and the sawdust box in court rooms, according to the observation of Elizabeth Reid, first woman arbitrator of the Illinois Industrial Commission, whose duties takes her to many of court houses in the state.
"The spittoon and its brother, the sawdust box," said Miss Reid, "are becoming almost as scarce as the buffalo. Even the boldest and basest of men seem to have some hesitancy about exhibiting before women their fondness for the cud."
"My work as arbitrator takes me the round of courthouses and city halls, and I note a decided change for the better. Public buildings are much cleaner than they were ten

years ago. I attribute it to women's advent into public life.
"Women's clubs, interested in community service, are responsible generally for the women's rest rooms in courthouses. Women's influence is seen also in the better kept court-house lavans and the scotters sentered about."

"Frequency with which women visit city and county court buildings is also quite noticeable now. It is not unusual to come across women county officers, and at several of my hearings, women and girls from the various offices come in to listen to compensation cases."

"I am often asked if I handle women's cases only. No, I handle all the cases in the particular vicinity to which I am sent, and the cases range from a pin scratch to a broken back, and from vaccination to seven year itch."

OLD SONGS MORE POPULAR

It is pleasant to read the announcement of the Music Publishers' association that the good old songs of home and heart and mother and mother love are growing in favor. There is a continuing demand for these dear old familiar melodies, homely but wholesome as some of them may be, breaching their message of normal human emotions and love, picturing the sweet and beautiful part of life. There is joy roused by the announcement they are crowding out the abomination of jazz that has made its appeal to the masses but has no reason for continuance. There is more joy that the unmusical melodies of Hawaii are losing steadily in public favor, says the Ohio State Journal.
Jazz and the Hawaiian melodies, like the 300 ride, make a great dust and commotion, but the end is inevitable. Lovers of music have reason for joy that a state of normal thought and judgment has been reached in musical life. There is so much of beautiful music within the reach of the most modest purse, no reason exists why the cheap, the vulgar, the abominable and the nerve-racking substitutes should ever be given a hearing.

MOUNTAIN MECCA OF WAR VETERANS

Statue of Madonna and Child Consecrated as Memorial to Heroes.

(BY ASSOCIATED PRESS.)
Monte Grappa, Italy.—This mountain, 5,000 feet high amid the rugged crags of the Alps, has just been the scene of a vast pilgrimage of 15,000 veterans of the world war, women and children, who for days have been climbing to reach the summit where the statue of a Madonna and child was consecrated in memory of the Italian heroes who fought in these mountain fastnesses.
The road to the summit is 18 miles in length and winds through passes, skirts the edge of the bottomless ravines and rises finally to giddy heights, where to the south one sees the plains of the Isonzo to the sea, to the north continue chains of towering Alps. It was thus that during the war, the army that occupied the mountain controlled the plain. It was the mountainous battleground of the Italian and Austrian armies and its changing of hands during the

course of the war is the story of the whole campaign.

Bomb Perils Statue.
The Madonna, which has now replaced here in 1919 by Cardinal Sarto, patriarch of Venice, in May, 1918, while the stronghold was in possession of the Italians, an Austrian bomb struck the pedestal on which the statue rested. A captain of engineers and handful of men left their dugouts among the rocks and in a terrible bombardment lifted the statue and took it to a place of safety. On a convenient day, it was taken down from the mountain and carried back to the rear to remain until the end of the war so that it could be erected with safety.

For the ceremony of replacing the Madonna, which has just taken place, the king was represented by the Duke of Bergamo who delivered an address on the sacrifices made by Italian troops in the defense of Grappa. Former Premier Orlando made the principal speech, in which he recounted the heroic exploits of the Italian army in overcoming the seemingly insurmountable difficulties of the mountain strongholds.

Cardinal Officials.
There were special commissions at the ceremony from the senate and the chamber of deputies. After the addresses, a mass was celebrated. The Cardinal of Venice with five bishops of the Venetia officiated in the religious ceremony.

General Giardino, known as the "Defender of Grappa," received a gold medal from the city of Treviso. While the ceremonies were performed, a huge dirigible hovered over the mountain heights signaling to the mountain villagers. It also carried a message to Grappa from the city of Venice, which read as follows: "The bulwark of the mountains, the bulwark of the mountains."

"Has your son gone into business yet?"

"No," said Mr. Grubbin, "but I'm inclined to be lenient with Jack and let him loaf for several years if he wants to."
